

Lamar Soccer Club Training Policy

Players

- Players are to perform a Health Assessment prior to every training session.
 - If a player has a fever (100.4 degree or higher) or exhibits symptoms for any illness, please do not attend practice. Use PlayMetrics to mark your absence accordingly and annotate as necessary for the coach's awareness.
- Please enter the training area using the closest entrance to your assigned field.
- No sharing of drinks or snacks.

Parents

- Only players and team staff (coaches and managers holding an APP) are allowed to come onto the field area inside the fencing during training. Parents should remain in the parking lot or outside the fence. This helps us control and enforce SafeSport practices for the children and, helps the players develop more independence and stay focused during the sessions. We understand there will always be mitigating circumstances but request you adhere to this restriction as much as possible.
- Coaches or the club will periodically open practices for parent observation. Please watch for these opportunities and use them to listen to our training practices and get a feel for what the coaches are trying to teach the players. Unless a coach or manager invites you to the sideline, please stay outside the fenced area during sessions.
- As with the players, if you exhibit symptoms for any illness, please do not enter the fenced in area and please do not interact with the players or other parents.
- Unsupervised children and animals are not permitted inside the fence line.
- Unauthorized use of the fields is strictly prohibited.

Coaches

- Coaches and Managers are to perform a Health Assessment prior to every training session.
 - If a coach has a fever (100.4 degree or higher) or exhibits symptoms for any illness, please do not attend practice.
- Coaches and Managers are to remain current on all necessary licensing and credentials including but not limited to SafeSport training and Heads Up Concussion Training.

Anyone may be asked to leave the training area at any time by a coach or manager. Obvious signs of illness, poor sportsmanship, parental coaching, or a general failure to adhere to established Lamar SC policies will result in removal from the fields.
